Academic Qualification

- Sethu Institute of Technology BE(Computer Science and Design) - CGPA(8.1)
- 12th Grade (Higher Secondary) | KVS Higher Secondary School | 72%

Skills

- | | | | |
|--------------|-----------|----------------|-------------------|
| • HTML | • C | • Bootstrap | • Problem-solving |
| • CSS | • C++ | • Figma | • Github |
| • JavaScript | • Java | • Canva | • Python |
| • React | • MongoDB | • UI/UX design | |

Area of Interest

Web Development | UI/UX Design | App Development | Front-End Development | Figma | HTML | CSS | JavaScript | Git | Problem Solving

Project

- Built an AI-based system to detect animals near highways and help prevent accidents.
- Used computer vision and machine learning to identify animals from camera images.
- Provided real-time alerts to improve road safety and protect wildlife.

Co-Curricular Activities

- Active participant in technical symposiums and coding competitions.
- Attended workshops on emerging web technologies and modern design trends.
- Full Stack Development – Novitech
- HTML & CSS – Udemy
- React Development – Novitech

Extra-Curricular Activities

- Practiced problem-solving and logical thinking using programming challenges
- Designed basic UI layouts and posters using Canva and Figma
- Built small personal projects to improve practical skills
- Took part in online technical webinars and workshops

Personality

- Adaptable learner with a proactive approach to problem-solving.
- Detail-oriented with a strong eye for visual aesthetics.
- Adaptable and quick to learn in dynamic environments

Hobbies

- Exploring new UI/UX design trends.
- Continuous learning through technical blogs and documentation.
- Watching technical tutorials and webinars
